Advanced Tracks Cleaner Crack+ Activation (Final 2022)

"Advanced Tracks Cleaner" will help you protect your computer. Advanced Tracks Cleaner secures your computer against the risks of attacks. It will clean any traces that could be used by others to retrieve confidential information or access your computer. "Advanced Tracks Cleaner" helps you secure your computer and also its owner! It will help you to protect your computer against intruders! Here are some key features of "Advanced Tracks Cleaner":
☑️ Configure "Advanced Tracks Cleaner" to startup for a single user.
☑️ Erase everything (Securely) It deletes any trace of all your activities from your computer.
☑️ Secure Erasing Secure cleaning of tracks is overwriting the file(s) the specified number of times with random character, this prevent others from recovering your file(s) using recovery tools.
☑️ Protect Internet Explorer Home Page Some sites change your start page. Checking this feature will enable Advanced Tracks Cleaner to monitor your home page settings. If another sites attempts to change your home page the Advanced Tracks Cleaner will disallow any changes.
☑️ Protect "Windows Recent Documents" Lists the last 15 document files that you have accessed, allowing any of these documents to be reopened simply by clicking on the name of the document. Erasing this list prevents others from determining which documents you may have recently opened or edited.
☑️ Protect "Windows Search History" Windows keeps a list of items that you have most recently searched for Files/Folders. You can erase this list to prevent others from seeing items you may have searched for Files/Folders, such as *.jpg.
☑️ Protect "Windows Run History" The start menu keeps a list of items activated (run) from the start menu. You can erase this list to prevent others from seeing actions you may have executed such as regedit.exe and ping.exe. Run history will be erased the next time you restart your computer.
☑️ Protect "Windows Open/Save Dialog History" Common Dialogs are the standard Windows file open/save boxes that most programs use to open and save files. Some versions of Windows maintain hidden history lists for these boxes. Windows also records the filenames that you opened and saved in the system registry.
☑️ Protect "Windows Explorer Registry Streams" Streams are history kept by Windows about your Explorer window settings. If you need to eliminate history

What's New in the Advanced Tracks Cleaner?
