I am using the jCarousel, and when I use the following line of code for the button to stop the carousel transition. this.jcarousel.stop(); This works perfectly fine and changes the slide to a static image of the image I set. However, I need to use jcarousel.refresh(), and the image changes to the first image in the carousel, and then it does this transition again. So, Is there a way I can use this line of code and stop this transition? Thanks for any help A: Using the function this.jcarousel.refresh(); Will do the job.
