Lies and deceit ahead. I bought this game last week thinking it was a good deal that would improve my life and allow me to enjoy hours of stress-free entertainment. Instead, I played for about 30 minutes, decided I'm a huge noob, and immediately bought the game again and spent some more money on DLC. To put it simply, I just can't seem to understand the "cute" detail. The English localization might have been done by a 5-year-old, but the voicing was perfectly satisfactory. GOOD: - Multiplayer BAD: - Ugly graphics (and what the hell is that face you can make in the 3rd chapter?) BAD: - Daily quests only for the first 2-3 chapters BAD: - Can't skip chapters BAD: - Too much fighting and too little exploring BAD: - DLC is also only for the first 2-3 chapters BAD: - Full-page item advertisements BAD: - Difficulty is too high BAD: - Too much fighting and exploring with no way out BAD: - Some of the NPCs are dumb BAD: - The anime cutscenes tend to look bad and only show cute moments BAD: - Levels are way too high and it's not possible to level-up BAD: - The level-ups are insanely fast BAD: - There are way too many things to do BAD: - You need to start from the beginning every time you finish an area BAD: - Items are way too expensive BAD: - No mention of karma and the group composition you're using BAD: -

Wildcard is too strong BAD: - Cheating with Wildcards is too easy BAD:
- 90% of the items are useless BAD: - The game is very easy BAD: - No
