Game Modes Create-A-Career : Play as your character by changing the appearance of any real-life player in the squad, then play out their story in the game. The player appears in your starting XI and completes a series of training drills and matches in your new role. Matches are the same as in real-life, with real-life player names and identities, and scoring and winning the match is also based on real-life data. Story Mode : Play out a story, giving you a series of matches with a range of difficulties based on your performance and progression. Your real-life player's stats and attributes will be reflected in the game, but you can also develop the character further by upgrading them. You can also unlock new customisable faces, or swap them out with one from the new FUT roster. Training Mode : In this mode, you can train your real-life player as you develop your character in Game Modes. These training drills are based on real-life training sessions that were captured during gameplay, then used to create the new drills. "Your Eyes In The Game" Special Events and Club Life Mode : FIFA is all about creating your own dream team, putting together your perfect squad, and making sure that your team is able to win trophies. And with the introduction of FIFA Ultimate Team, fans get a chance to make their team perfect. "Your

Eyes In The Game" Special Events are now being based on real-life events in the Premier League. These events will span a match day in our home leagues — and then our fans have the chance to vote, via MyClub mode, in order to bring these special moments into the game. With a return to Club Life, fans will see just how many in-game promotions they will be able to use throughout the season, and which of their players will use the most advanced training techniques. Re-Invigoration of Premier League: The Premier League is the most successful football league in the world and FIFA gives this great league a FIFA update. Ultimate Team and FUT Draft cards have been developed to give players in the season mode the opportunity to create the best team possible, and for those in Season Mode, create a winning club. Players will be able to select the worst player cards and upgrade them through these cards to create a competitive and fit squad. The squad will also be able to re-invigorate their squads throughout the season. New cards will be added to the game
