We've partnered with the largest aviation and airport modeling community in the world to bring you the most detailed airport models in X-Plane 11. The first is the Aerosoft Europe-6 Airport model that features 350+ square miles of terrain, taxiways, runways, ramps, and support buildings. Our second is the Aerosoft Europe-6 Turboprop Airport which will ship with the third version of X-Plane 11 later this year. These two items will be included with X-Plane 11 Global Scenery: Europe. With all Aerosoft Airport Items installed, you will be able to access these new airports when the Global Scenery Items are activated: Paris - Orly Airport - 8.5 square miles of terrain, 4 taxiways, 8 runways, and 3 support buildings.
