Basic Gameplay Basic customization Player interaction Storyboard Developer's Notes On the flippan side, I think that the "newbie's guide" may have been put in the storyboard about like 5 minutes before release. Basic Gameplay - Classical fantasy action RPG: - A vast world with a wide variety of locations in open fields and huge, complicated dungeons. - Various enemy types and high level battles await you - A variety of items to enhance your battle strength - You are supported by a team of four adventurers and can freely move together - The story changes depending on the play style. - Check out the storyboards on our Community Blog Basic customization - Easy and Fun to customize all character attributes, such as appearance, weaponry, and magic power - There are different appeal points, and you can allocate one of your points per character. - You can also spend effect points using special skills Player interaction - Directly encounter and fight together with other players - Depending on the number of players that are selected, the game will vary in terms of difficulty and thrill - Can see the position, status, and strategies of your companions - You can avoid and deceive the enemy by listening to your companions' advice Storyboard - A story in which the various thoughts of the various characters who have arrived at this time intersect in the Lands Between. - A multilayered storyline full of episodic elements, complete with a large number of scenes and characters. - Through our storyboard, you can check out the people who are also going on a journey to the Lands Between to find the Elder and experience the story of the Lands Between. Developer's Notes - I'm so happy that the player can enjoy a visually appealing world that is different from the gameplay mechanics that are familiar to them. - Our story, which is written and drawn by skilled storytellers, is also simple and easy to understand. - I'm happy that the world of the game we created was strengthened and filled with the charm that I wanted. We are currently working on small adjustments for the bugs. - Feel free to give us your feedback! ^ Guide: Older
