This screensaver is one more step in adapting the new fashion trend of selecting screensavers containing only the best images that represent the current season. But this time it is not done in an empirical way — the images and scenery were selected by our artists based on their personal creativity. And many of them are breathtaking even by themselves. A bright and pleasant place to relax after an active day. Look! The day is coming! You feel warmth in the air, clouds and sun are smiling at you. And the trees are still full of green leaves and look calm and fresh. Although they are not comparable with the waves of spring, they look much more natural and present. This screensaver will take you to the place of good cheer and relaxation, the place where there is no hurry and the time passes slow. The noise

of busy city life is becoming weaker and softer. The bright blue skies are a magical background. Everything is perfect as nature wants. With this screensaver you will travel to another world, almost to the celestial bodies. Nature during April and May blossom welcomes you with thousands of different and unusual flowers. In the atmosphere of the sky appears a wreathed group of planets. Colors of the sky change, gradually appearing light, gradually dark; in the distance you see magnificent clouds, graceful transparent clouds. Those are the days when Sun and Moon are close to each other, when the sky is filled with magical clouds. You can use the fruit and flower slider to select the kind of blossom that is shown in the screensaver: from delicate to powerful colors. Applying the sliding control, you will immediately change the speed of the rotation of the screen. You can also specify the position

of the Sun, the time of its appearance in the sky; turn on the sound of nature to hear the chirping and humming of the forest. The theme of this screensaver is a real success. Spring Flourish Free screensaver comes as a small, easy-to-use tool. No complicated settings. You can make your own screen appearance. Q:
Passing specific parameters with active record in ruby on rails 3
In my ruby on rails 3 project I have a function:

```
def self.test_path(data)
  test_path = data.find_by(type: "test")
  raise "ERROR" if test_path.nil?
  return test_path
```

end When I run the test in my application and invoke the function in my test: 2.0.0p247 :001
> Myclass.test_path(params[:path]) I get the error: NoMethodError: undefined method `test_path' for # from D:/CDSL/Documents/projects/cdsl_poc/code/app/controllers/testController.rb:26:in `test' from C:/Ruby193/lib/ruby/g

Animals and some other objects like trees are included as well. Free desktop screensaver of the simulates an electric aircraft which is in flight by waving your mouse pointer. The machine resembles a real craft, it has a modern wing-shape which

creates an impression of a plane in the air. You will see the front, the wingtip, the controls and a great many other things. The plane is very responsive to your actions and its movements are very real. The flying machine hovers in the air. As you move your mouse pointer the aircraft will move too. The scenery around you as well as the weather change from sunny day to cloudy day, windy day to day without wind and calm day. You will feel a real wind from high above the clouds. The most interesting feature of this screensaver is that it can be configured to fly any object that you like. You are free to create your own aircraft or a free aircraft that is displayed in the air. From the famous "Tetris" to funny animated planes with balls and the ships you can create the aircraft of your dreams. If you like the screensaver you can send me a mail at All rights to the screensaver reserved. It is an

original work of mine and protected by copyright. A realization of my dream, an animation of the flying machines, these machines move very gently, but very lightly (and not only in the air). A flying machine can be one, a sketch, an idea, or just a virtual model - like a simple paper model. It's 3D, like a real cockpit! A dragonfly does its thing. It flies through the day and it flies back to its nest in the evening when the sun set. A dragonfly leaves a small trail which shows how it flies. It is almost like real flight! "Ouija" screensaver is a fun, yet educational project. Part of this project includes a printed book, as well as a CD-Rom with interactive screensaver images. The Ouija is a popular game based on spiritual communications, with the goal being to communicate with spirits through a board of innocent looking letters and numbers. The Ouija exhibits a large number of paranormal

phenomena, including toplofty flapping images
and crazy cards. The goal
