Requirements: To run smoothly, Video To Photo Converter should be able to support system requirements: Windows 2000, Windows XP, Windows Vista, Windows 7. CPU: P4 2.8 GHz RAM: 1 GB Hard Disk: 1 GB Video To Photo Converter Screenshots: Video To Photo Converter Try another driver version, or other video capture program. If you can not find suitable video capture program or driver. Please contact us for

driver. Its a very useful program for me because i have few videos in which i have some important scenes where i want to extract and save as frames to be use later for fast review. This option works very fast and easy to use. In the trial version i discovered some function not available in pro version and i need to have more free space for saving the files to disk. I consider a way of paying to save the video on my hard disk for later use without

wasting space. Video to Photo works fantastic.
