Download BrowserAddonsView for your PC, iPhone or iPad. It is a free and lightweight tool that helps you access different browser add-ons. Download BrowserAddonsView at the link below. You can also download other Cool Tools. BrowserAddonsView Support for: Windows, Windows Phone, iPhone, iPad Requires: None License: Try before you buy It doesn't matter whether you download or buy BrowserAddonsView, you are always free to try its tools before you buy it. If you work with multiple web browsers on your computer, you might need a tool that can help you keep track of some of their components, such as their add-ons. Fortunately, nowadays there is a broad selection of software utilities that can help you access these details without much effort. One of them is BrowserAddonsView. No installation required Since it is portable, you do not need to install this application on your computer, as simply unpacking the archive contents and launching the executable grants you full access to its controls. More so, it does not tamper with any of your Windows registry entries, nor does it create additional files or folders on your system without your permission. Minimalistic design This tool comes with a simple, user-friendly interface that encompasses intuitive functions, thus making it possible for a wide variety of users to benefit from its capabilities, regardless of their PC skills. Most of its features are neatly organized in menus, while some of them, such as the save, refresh, copy and properties ones, are also available as toolbar buttons. View a list of browser add-ons BrowserAddonsView enables you to view a list of all the browser add-ons available on your computer and supports various browsers, such as Internet Explorer, Mozilla Firefox or Google Chrome. The add-ons can be sorted by type, browser, status, version, description or title by clicking the appropriate column button, according to your preferences. More so, you can view more in-depth information about a particular item on the list, such as item ID, version, title, creator, creation time and size. Generate HTML reports In case you want to save the provided information on your computer, this program features support for HTML report generation. You can create reports for all the items or only for selected ones by clicking the appropriate option under the View menu

What's New in the?

BrowserAddonsView is a lightweight browser add-on viewer with minimalistic design, portable file size, minimize and regular updates. BrowserAddonsView is what you need for quick... Hello, BrowserAddonsView Description: BrowserAddonsView is a lightweight browser add-on viewer with minimalistic design, portable file size, minimize and regular updates. BrowserAddonsView Features: - BrowserAddonsView is a lightweight browser add-on viewer with minimalistic design, portable file size, minimize and regular updates. BrowserAddonsView - Key Features: * BrowserAddonsView has a minimalist user interface and is fully customizable. * BrowserAddonsView supports a broad variety of browsers, such as Internet Explorer, Mozilla Firefox or Google Chrome. * BrowserAddonsView has a panel that can be collapsed, expanded or minimized to make the toolbar menu even smaller. * Besides that, you can easily change the color and layout of the main Toolbar menu by clicking on the Configure button (Customize). * The Toolbar, Bar and Sidebar menus can be fully rearranged by dragging and dropping items. * You can configure the Toolbar menu and use a different color scheme from the ones provided with the program. * The Toolbar menu can be stored on your computer with one click. * If you experience some performance issues, you can use its Minimize option to free up more system resources. * Minimize also enables you to resize the Toolbar menu, configure its appearance and reorder the items. * As far as the Add-Ons menu is concerned, you can use the Save feature to save the active add-on list in a HTML report for later reference. * The program has a dynamic help system that can be activated by clicking the (?) button next to any menu. * To close the add-on list or the Toolbar menu, simply use the X button. * You can close any open Web page by right-clicking on it. * BrowserAddonsView comes with file extensions that are only related to browser add-ons and are not installers, like .html, .htm, .php, .zip and others. * BrowserAddonsView can copy or export a list of active add-ons and their settings to a text file in a format that
