

„Wow, San Andreas. Extreme, incredible, and just the right amount of melty-hot (Not “melty”, as in anything related to GTA. Melty as in what I’m sure you’re thinking. “Melty” as in “heartburn”. That was what was in my mind. But as I was about to type “melty hot”, it would’ve been... incorrect. Also inappropriate. I’m a gentleman.”). I’ll go ahead and say it. This game is awesome. Especially if you’ve played the original game. A whole hell of a lot of improvements have been made to the graphics, gameplay, and overall feel of the game. I haven’t played the original game in a good, long time. But when I did, I just felt like I was back in my teenage years all over again. The whole San Andreas area is absolutely incredible. The whole game just feels so much more immersive and easy to understand and navigate. It is almost as if you’re there. Which is of course, where the name of this particular mod comes in. How could this be? I installed this game on my Xbox, a GameCube and a PS3, and it worked on all of them. I also tried this game on my Playstation Vita and my Wii U, but none of them could play it. And that’s OK! GTA San Andreas is a great game, no matter how old you are. The graphics are so, so good. And the music departments are great, no matter how you want to enjoy it. You could listen to it with the music off, and it would still be enjoyable. I did that for this review. I played the game while the music was on and I listened to the CD, all the way through. No issues whatsoever. So I can’t find a downside to this game. And that’s just awesome. I have played this game countless
