It is the best Calculator to calculate the GPA of any class! It does a very simple and easy calculation of GPA. Features: *It allows to calculate the GPA for more than 200 classes! *Calculates the GPA for any classes! *It is very easy to use. *It can calculate the GPA based on any class! *It can also take into account AP classes. *It can calculate the GPA with classes that have grades in progress (ex. ID for a science class). *It has a very clean and beautiful interface. Calculating GPA: Calculates the GPA with any class. It also allows you to calculate the GPA of any class with the option of a final grade on any day. DETAILS: In calculating the GPA, students are counted as in progress, when the attendance is not 100% or the class is not taken. In class without attendance, the class is considered not taken, and in the class with 100% attendance, the class is considered final. For calculating the GPA, classes are counted as their average total grade (final + midterm + midterm). • The results are calculated in points and the GPA expressed as a percentage (ex. $GPA\ 4.0 = 4.0/4.0 = 100\%$). • A different color is used for each grade level (ex. A = red, B = orange, C = green, D = yellow). • Columns and rows can be turned off. • You can modify the results to have a different number of classes and the option to calculate the GPA for any class. • The usage text can be modified. • It is a very simple and easy to use program.
